

## Documentation

**Purpose:** Selling products (minerals in this case) online.

**Potential customers of the potential client's site:** Individuals.

**Potential customers of site:** Stores with a relatively compact field of products.

All pages and subpages contains an header with links to "Mail", "Sign-In", "Contact", shopping cart and a search function. All of them follow a similar color spectrum and same css file.

**Primary page:** Contains all the items with costs, image(s) and links to more specific information about each respective item.

**"Mail" page:** Contains a page where you can be subscribed to an ev. news feed etc.

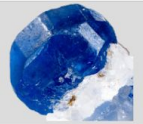

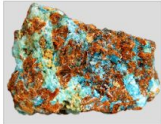

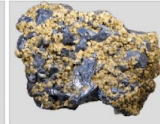

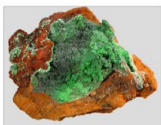

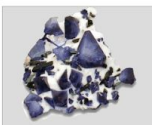

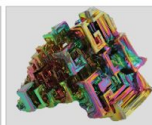

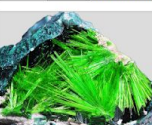

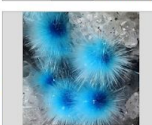

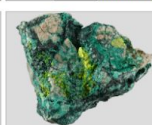

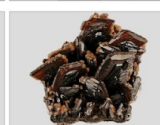

**Contact page:** Is where you can contact the web developer through an embedded email function.

**Sign-in page:** Makes it possible to create an account and saves its in the database but as of yet serves no significant purpose.

**Check-out page:** Lets you remove items or empty cart if wanted and confirm your shopping cart to buy the items, in theory. BUT you can not physically buy anything since we do not actually have the materials.

**Potential feature:** A paypal account linking to the checkout-page.
